

# HARI SANKAR A K

Computer Science Engineer

## ABOUT ME

I am a recent graduate in Computer Science Engineering with a strong knowledge of Java, Python, C, and SQL. Although I have no professional experience, I am highly motivated to enhance my skills and put them into practice. I am eager to join a dynamic team where I can contribute, learn, and grow as a professional.

## LANGUAGES

- English
- Malayalam
- Hindi
- Tamil

## SKILLS

- Java
- SQL
- Python
- MS Office
- C Language

## ACHIEVEMENTS

### PRESENTATION

Presented project paper at the national conference conducted by The Institution of Engineers India (IEI)

8547005624

## EDUCATION

<b>Chinmaya Vidyalaya</b> 2015-2016	<b>High School</b> Completed 10th grade in ICSE syllabus with a specialization in Computer Science as an elective, achieving a score of 83.33%.
<b>Chinmaya Vidyalaya</b> 2018-2019	<b>Higher Secondary</b> Completed 12th grade in ISC syllabus, specializing in Computer Science and Elective, securing a score of 84.5%.
<b>St. Thomas Institute for Science and Technology</b> 2019-2023	<b>Bachelor of Technology (B.Tech)</b> Completed Bachelor's degree in Computer Science Engineering with a CGPA of 8.46

## PROJECTS

<b>Plant Leaf Disease Detection System</b>	As part of my academic project, I developed a Plant Leaf Disease Detection System utilizing the VGG19 deep learning model. This project showcased my proficiency in deep learning techniques and their potential impact on agriculture and crop management.
<b>College Bus tracking System</b>	As part of my minor project, I developed an Android application aimed at tracking college buses using location sharing. The application allowed users to track the real-time location of the college buses. This project showcased my skills in mobile app development.
<b>Hospital Management System</b>	As part of my personal project, I developed a Hospital Management System as a personal project, utilizing JDBC and MySQL. The system efficiently manages hospital operations, showcasing my skills in software development and database integration.
